

Congratulations to **Mike Mehaffey** on His Retirement!

After 27 years of dedicated service, Mike Mehaffey, our beloved Public Works Director, is retiring from the Town of Maggie Valley.

Mike has been the backbone of so many projects—snow removal before dawn, infrastructure improvements, park enhancements, and keeping our town running smoothly day in and day out. His commitment, leadership, and deep care for this community have made a lasting impact on everyone who lives and works here.

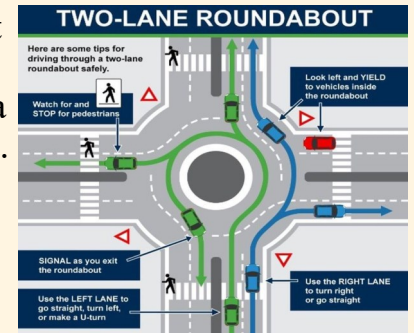

From all of us at the Town of Maggie Valley, thank you, Mike, for your hard work, your integrity, and your unwavering service. You leave behind a legacy of excellence and heart.

Wishing you a well-earned retirement full of rest, family, and plenty of time to enjoy the beautiful valley you've helped shape.

With all the fuss surrounding the round about going in at the intersection of Jonthan Creek and Soco Rd., we thought we would include a diagram on how to use a two lane roundabout. We encourage everyone to take the time to learn to use it properly. This will help keep everyone safe as we become accustomed to navigating this new traffic intersection.

In an effort to familiarize our citizens with those who serve their community, We have started a new program, The Heart and Hands of the Valley. Introducing those employees you may never see, but who are about the Town's business.

Meet **Zac Smith**

Zac is a Haywood County Native who has worked in our Public Works Dept. since 2021. Zac and his wife, Izzie, who were married in 2023 are expecting their first child this year, a little girl. Zac is working as an apprentice to Jack Mehaffey to earn his license as an electrician.

Are you following Us on Facebook? We use our Facebook page to keep those in the know, up to date on everything going on in town and around the county. Out of our 7894 followers 75% are women and 25% are men. During the last 28 days we have had over 108K views and 166 new followers. You will see weekly updates on Festival Ground happenings, relevant information on Town services and Town announcements.

Check out the changes to our Website. We are undergoing a renovation of our site. We have removed duplicate pages, condensed others down to one page and made small decorative changes to the color schemes and pictures. There are plans to continue making changes for ease of use. You will find the most recent information on our Home page, which is updated weekly. Let us know what you would like to see, we will do our best.

Bet you noticed the bathrooms at the parks and the pavilion were closed for about a week in April. The Town made some improvements. The floors have been resurfaced with a new polymer that includes colored flakes that match the colors of our Maggie Town Logo.

The Rut has begun!
Elk may look friend shaped,
But they already have all the friends they want.
Keep your distance and don't make it awkward.
